

VETTE CORP NAMES JOSEPH CAPES TO HEAD DATACOM FACILITIES DIVISION, SPECIALIZING IN LIQUID COOLING

Will Lead Development of Thermal Management Solutions for Data Center and Server Cooling

Manchester, NH -- December 6th, 2007 -- [Vette Corp](#) (Vette), a leading global provider of thermal management solutions, announces Joseph M. Capes as general manager of its datacom facilities division. Mr. Capes will lead the recently formed division to focus on liquid cooling for communications services facilities and data center cooling applications. Mr. Capes joins Vette from Premium Power Corporation, where he was vice president of sales and marketing.

According to Vette Corp President and CEO George Dannecker, "Since joining Vette in July, Joe has lead our datacom facilities division as we continue to expand our portfolio of leading-edge thermal management solutions with liquid cooling technology. Vette's offerings will include the industry's most reliable and cost-effective solutions for high-density data center and server cooling."

Prior to his position at Premium Power Corporation, Mr. Capes was director of business development for Northeast Engineers & Consultants. He also held a series of executive positions at American Power Conversion (APC) including director of marketing – EMEA; director of sales – EMEA; worldwide director of sales for precision cooling solutions; and director of global business development. While employed by APC, he led the company's entry into the precision cooling market and globalized the sales, marketing and service strategy. During the period of his employment with APC, sales revenues grew from \$157 Million to \$1.3 Billion.

Mr. Capes earned a Bachelor of Science in Electrical Engineering from Lehigh University. He is a member of the 7x24 Exchange, CTIA (Cellular Telecommunications & Internet Association) and an active member of the Electricity Storage Association.

About Vette Corp

Founded in 2004, Vette Corp is a global thermal management solutions provider specializing in solving thermal challenges for leading OEM's, operators and owners of computer, communications and industrial electronic equipment. Vette maintains a growing IP portfolio, with design and applications engineering in Asia and North America. The company operates high-volume manufacturing facilities in both continents.

Vette Corp's extensive solutions portfolio, design and manufacturing capabilities are complemented by world-class supply chain and customer service to offer clients the lowest cost, highest quality end-to-end solutions available for today's complex thermal problems. The corporation is privately held and is headquartered in Manchester, New Hampshire, USA. Additional information about Vette Corp can be found at www.vettecorp.com.
